General Information

Short summary

A Lithuanian SME that produces organic fruit and vegetable food mixes is looking for international partners. The company is interested in finding partners from Europe through a supplier agreement of various freeze dried products that would be in powder form.

Full description

The company is a Lithuanian startup food manufacturer, the company manufactures food mixes which are produced of carefully selected, balanced ingredients that are grown on organic farms and found in nature. All these natural products are presented in lyophilised or dried powder form so that the active ingredients can be absorbed quickly and conveniently. The company is an innovator in its market, and its products are supplied both in Lithuania and abroad. Quality and safety are the company's top priorities.

The company is now looking to create a supplier agreement with a supplier of freeze dried powder of various tastes (the full list of tastes is provided below). The company prefers a supplier from Europe. Additionally, the supplier must have experience in the import field and must have an extensive experience in working with international partners. The freeze dried powder could come in these tastes:

THE ENTIRE LIST OF LOOKING PRODUCTS:

Nettle, spinach, peas, broccoli, beet, sweet potato, Maca, Carrot, Pumpkin, Jerusalem artichokes, wheat, grass, tomatoes, kale, alfalfa, ginger, flax seed, hemp seeds powder, pomegranates, plums, kiwi, apple, pineapple, blueberry, black currant, sea buckthorn, goji, rosehip, banana, peach, strawberry, dates, acerola, aswagandha, mangoes, lucuma, rhubarb, raspberry, blackberry, chia powder, cinnamon, turmeric, pepper, protein blend, peas protein, cocoa.

The supplied ingredients should be Manufactured to certified (ISO 9001: 2015; ISO 22000: 2018; HACCP).

Advantages and innovations

Organic food mixes are created from responsibly and carefully selected, balanced ingredients grown on organic farms and found in nature. The mixes are rich in lyophilized berries, fruits, vegetables, spices, herbs, grain cultures, mushrooms and other adaptogens. All these natural products are presented in the form of lyophilized or dried powder, so that the active substances can be absorbed quickly and conveniently.

Technical specification or expertise sought

Partner is expected to have experience with imports and must have an extensive experience in working with international partners, and stand out by:

- Stability of supply;
- Organic products;
- Competitive prices.
